Experience

Project Lead, 07/2026 - Current

ClariPro - ClariMed in Chadds Ford, Pennsylvania

- Built an internal, Claude-powered proposal assistant for ClariMed's business development team to draft first-pass client proposals, find similar past engagements, and guide staff to the correct deliverable type.
- Created a Claude Skill that auto-builds branded drafts from the firm's templates, saving staff hours per proposal.

Human Factors Intern, 03/2026 - Current

ClariMed - Chadds Ford, Pennsylvania

- Supporting human factors and usability engineering efforts for medical device products, applying user-centered design principles to enhance safety, usability, and user experience.
- Collaborating on client-facing product and consulting projects, helping assess user needs, identify usability considerations, and inform design decisions throughout the medical device lifecycle.

Application Developer, 10/2025 - 11/2025

Fish Keeper API - Pennsylvania State University, PA

- Co-Developed Fish Keeper, an application that lets users browse or search for local fish species, and instantly view the minimum legal size required to keep each fish.
- Implemented intuitive search functionality and a structured species database with JavaScript in a VS Code environment to support quick and accurate lookups.

Mobile Developer - Team Lead, 06/2025 - 09/2025

Propvia - Remote

- Led a small development team to create a mobile version of Propvia's website through React Native and Expo.
- Worked with other designers to balance brand consistency with mobile usability, adapt styles and components where needed, render an AI chatbot for app users, and validate decisions via user research and usability testing.
